Pat –

We are going to try and get Hydrostatic Testing, Sand & Gravel, and Non-contact Cooling Water back to you today (12/6).

When can we expect the Non-objection letters for GW Remediation and Petroleum Product Terminal GPs?

Have a great weekend.

Thanks.

Paul and Catherine – I haven't heard back on the status of these two draft GPs. I think we gave second round comments on these last summer but haven't seen a revision since. Hopefully you have been able to address our comments and can send us a final draft. If not, let us know and we can work through them with you.

**Subject:** RE: General Permit Reviews - Groundwater Remediation and Petroleum Products Terminals

Paul – We have no additional comments of the Groundwater Remediation and Petroleum Products Terminals GPs.

What is the status of Hydro static and Sand and gravel? I think we are waiting final from you to address a couple of comments we made on the second drafts last summer.

Brian – tells me that he is bogged down on a MS4 enforcement case. He says he needs until the 15<sup>th</sup> now.

**Subject:** General Permit Reviews - Groundwater Remediation and Petroleum Products Terminals

Pat –

We sent the above noted general permits to EPA for review on 7/10 and 7/11 , respectively, but I do not see where we have rec'd any comments back. Could you please give me an update on the status of EPA's review of these 2 GP's?

Thanks.
